

BRASS TUBULAR LAVATORY TAILPIECE

» 213/215 SERIES

SPECIFICATION

Sioux Chief 213/215 series brass tubular lavatory tailpiece shall be used where necessary in plumbing fixture waste systems. Tailpiece shall incorporate a 3/4" nominal CTS secondary inlet branch for lavatory or auxiliary drainage. Branch inlet shall be tapered downward before entering tailpiece body to reduce splash-up. Designed in accordance with ASME A112.18.2.

MATERIALS

Tailpiece: Brass
Nut: Solid brass, chrome-plated brass
Branch: Copper tube
