

FLUSH VALVE SUPPORT EXTENSION BRACKET

»» 521-730

SPECIFICATION

Sioux Chief 521-730 flush valve support bracket extension shall be designed to work in conjunction with Sioux Chief carrier brackets. Extension bracket is used to raise the rough in height of the flushometer supply.

INSTALLATION

Position extension bracket upright on carrier stud bolts. Tighten nuts to secure bracket in place. Extension bracket fits inside the channel on any Sioux Chief carrier bracket (purchase separately). Secure brackets together with approved hardware (not provided) at desired extended height.

MATERIALS

16-gauge copper-plated steel
